ENCOMPASS SECURITY
A CYBER AND IDENTITY SOLUTIONS COMPANY

Service Definitions

SECURITY

Antivirus (50 Devices)

Keeps your devices safe from all types of malware, such as viruses, ransomware, spyware and more.

VPN (50 Devices)

VPN (Virtual Private Network) protects your internet connection with military-grade encryption so you can shop, bank, and work online more privately and securely.

Vault (5GB)

Vault is like your digital lockbox. It allows you to store your most important digital files and passwords to keep secure, and easily share them with family members so everyone can stay connected and safe.

Safe Browsing (50 Devices)

Safe Browsing stops you from entering dangerous scam or phishing websites.

Password Manager

Helps to secure your online accounts with strong passwords, and easily access them across devices.

Privacy Assistant

Strategic requests for removal of your personal info from Data Brokers. Data brokers collect and sell your info to advertisers, telemarketers, and potential fraudsters – exposing you to ads, scams, spam, or fraud.

Anti-Track and Ad Blocker

Blocks distracting ads and intrusive site trackers to keep your browsing activity private.

Email Alias

Generate aliases to hide your email address so you can prevent unwanted emails and reduce your exposure in data breaches.

Spam Call & Message Protection

Reduces robocalls and costly phone scams. Predictive AI adds multiple layers of protection—for unknown calls and verifies the call details before forwarding it to you.

Parental Controls

Let your kids browse online safely. Filter harmful sites and easily manage how much time they spend on apps like YouTube, Roblox, SnapChat and more. Powered by Circle, an award-winning technology used by thousands of parents.

Safe Gaming with Cyberbullying Alerts

Keep your child safe from online predators, scams, and cyberbullying when playing online video games. Get alerted to threats with 24/7 in-game voice and text monitoring for over 200 of the most popular PC games. Powered by award-winning ProtectMe by Kidas.

Child 3-Bureau Credit Freeze

If you are a parent or guardian, you can protect your child's credit by requesting the credit bureaus to freeze their credit file. This process is tedious and involves a ton of paperwork. We've streamlined the process to make it easy for you to submit your child's credit freeze request across Equifax, Experian, and Transunion.

Family Fraud Alerts Sharing

We make it easy to request and share identity and credit threat alerts among your family, so you can stay on top of everyone's online safety.

Child Sex Offender Geo-Alerts

We automatically alert you to known and new sex offenders within a 1-mile radius of your provided address so you're more empowered to keep your family safe.

Account Breach Monitoring

Alerts if your registered online accounts have been breached or found on the Dark Web.

MONITORING

SSN and Personal Information Monitoring

Notification if your personal information (e.g., passports, SSN, etc.) have been exposed on the Dark Web.

Child SSN Monitoring

Nearly 1M children were victims of identity theft in 2022. Our active program scans billions of public records to detect and alert you if your Child's SSN is being used by someone else.

Home and Auto Title Monitoring

Continuous monitoring of your property and auto titles for indications of fraud. You'll be alerted when changes to existing titles are detected.

Identity Verification Monitoring

Notifications if your identity and SSN are being used for high-risk transactions, like payday loans.

Criminal and Court Records Monitoring

Notifications if we detect that your identity was stolen and used by criminals.

3-Bureau Credit Monitoring

The fastest, near real-time alerts of inquiries into your credit files across Equifax, TransUnion, and Experian.³

Credit Lock

Instantly lock your Experian credit file to protect yourself from identity theft and credit fraud.

Bank Fraud Monitoring

Stay safe from bank fraud by getting notified when someone tries to modify your bank account's personal information or add new account holders to access your funds.

Financial Transaction Monitoring

Track transactions on your credit card, banking, and investment accounts in one place.

401k & Investment Account Monitoring

Get notified if your registered financial accounts were exposed on the Dark Web.

Monthly Credit Score¹

Receive a monthly credit score and view trends over time.

Annual Credit Reports

View credit reports from the 3 major credit bureaus (Equifax, TransUnion, and Experian).

RECOVERY AND RESTORATION

Fully managed Identity Fraud Restoration and Recovery

US-based White Glove Fraud Resolution team will resolve your identity theft or fraud incident working for and with you to completion.

\$5 Million insurance reimbursement policy (\$1 million per adult)

Every adult member on your plan is backed by a \$1,000,000 insurance policy to cover eligible losses and fees due to identity theft.

Lost Wallet Remediation

If you lost your wallet, our Customer Support team will work with you on a remediation plan.
